You may qualify for free care, discounts, no-interest payment terms, based on how much you earn.

### **Eligibility requirements**

Financial assistance is generally determined by a sliding scale of total household income based on the Federal Poverty Guidelines (FPG). Individuals eligible for financial assistance under our Policy with a household income at or below 250% of current Federal Poverty Limits (FPL) are eligible for free care. Individuals with an income level from 251% and less than or equal to 400% of the current FPL are eligible for discounted care based on a sliding scale, as set forth in the Policy. A patient determined to be eligible for financial assistance may not be charged more than amounts generally billed for emergency or other medically necessary care to patients who have insurance for such care.

# How to apply for assistance:

Application forms are made available in Pre-Registration, Admission/Registration, and several alternative registration sites to facilitate early identification and initiation of the application process. If you need assistance in completing the form, have questions about your ability to pay, need information about available programs, or would like to speak directly with a patient representative, please call one of our financial counselors.
