

Standards of Behavior

"ACTS of Excellence"

It all begins with “I will...”

We are pleased to share with you Summa Health’s Standards of Behavior.

We work for Summa Health because we have a passion for a healthier tomorrow. We work together to create a bigger impact on the health of our community. And that impact all begins with “I will...”

Based on our philosophy of “servant leadership,” to serve the patient, or to serve those who do, these standards were developed by our fellow employees throughout our health system to allow us to offer the highest level of compassionate care to our patients, their families and members of our communities.

Our Standards of Excellence distinguish us among our peers in the healthcare industry. These guidelines promote the best in ourselves and each other. By practicing these behaviors and coaching each other to achieve these standards, we improve each patient’s experience and create a positive, productive and respectful working environment.

Each of us is the face of Summa. We are the individuals our patients look to – and count on – during their most difficult hours. We are grateful for your commitment to honor these standards and thank you for your continued, unwavering dedication to our mission, vision and values.

You are Summa.

You are what people see when they arrive here.

Yours are the eyes they look into when they're frightened and lonely.

You are the voices people hear when they ride the elevators and when they try to sleep and when they try to forget their problems. You are what they hear on their way to their destinies. And what they hear after they leave those appointments.

Yours are the comments people hear when you think they can't.

Yours is the intelligence and caring that people hope they'll find here.

If you're noisy, so is Summa Health. If you're rude, so is the system. And if you're wonderful, so is the system.

No visitors, no patients, no physicians or coworkers can ever know the real you, the you that you know is there — unless you let them see it. All they can know is what they see and hear and experience.

And so we have a stake in your attitude and in the collective attitudes of everyone who works at Summa. We are judged by your performance. We are the care you give, the attention you pay, the courtesies you extend.

Thank you for all you're doing.
