MISSION STATEMENT

The Mission of the Summa Health System - Akron Campus PGY2 Residency is to:

- Train effective, confident, compassionate, and proficient clinicians who focus on direct patient care
- Develop skills necessary to participate in development, implementation and growth of pharmacy services
- Promote and transform the practice of pharmacy in our community, state, and country

PURPOSE

Pharmacists completing the PGY2 residency at Summa Health System – Akron Campus will be prepared to assume positions as clinical pharmacy specialists in various ambulatory settings. They will receive rigorous coaching and experience in the practice of providing proficient direct patient care as part of an interdisciplinary team. The residency will prepare individuals for BCACP certification examination. Emphasis will be placed on communication skills and evidence-based medicine management in various ambulatory settings (i.e. Hospital-based clinics, managed care/ACO settings, and academia)
Summa Health System
PGY2 Ambulatory Care Residency

OUTCOMES

Upon completion of the PGY2 Ambulatory Care Residency at Summa Health System, the pharmacist/resident will:

- Establish a collaborative, interdisciplinary practice
- Provide efficient, effective, evidence-based, patient-centered treatment for chronic and/or acute illnesses in all degrees of complexity
- Demonstrate leadership and practice management skills
- Promote health improvement, wellness, and disease prevention
- Demonstrate excellence in the provision of training or educational activities for health care professionals and health care professionals in training
- Serve as an authoritative resource on the optimal use of medications

SUMMA AT A GLANCE

Summa Health System is a tertiary, teaching healthcare system that includes Akron Campus, Barberton Campus, St. Thomas Campus, and the Summa Rehab Hospital.

- 700 licensed beds
- 10,000 full-time employees
- More than 1,200 credentialed physicians
- 280 resident physicians

DEPARTMENT OF PHARMACY

The Akron-Campus Department of Pharmacy Services offers 24 hour unit-dose, central I.V. admixture programs, and decentralized pharmaceutical services. Clinical activities of the department include coordination of investigational drug protocols, nutrition support services, drug utilization review, medication safety services, inter-disciplinary care rounds in various acute/chronic care setting (Acute care for the elderly, Stroke, Internal Medicine, Cardiology, Palliative Care, Critical Care, Oncology, Ambulatory Care), anticoagulation services and patient monitoring and discharge counseling programs. In addition, the department provides a variety of educational programs to pharmacy, medical, nursing, and dental personnel.
